GIS Developer - Software Developer - Programmer

We are a young start-up company which is active in the field of specialised geographic information systems as well as collection and analysis of geographical data. We consider geographical data as a possibility to understand and explain relationships and generate innovative solutions. You will find further information about the company on our website www.egeos.eu.

To extend our team we are looking for geoinformatic specialists, software developers or talented and motivated career changers. Your work will consist of developing and adapting desktop- and web-based geographic information systems as well as collection and analysis of spatial datasets.

What are your tasks?

- design, adaptation and administration of spatial databases (e.g. PostgreSQL/PostGIS, Oracle, SDE)
- development and adaptation of desktop-based geographic information systems (closed and open source) as well as web-based geographic information systems
- collection, management, visualisation and modelling of spatial datasets

What do we expect?

- degree in the field of Geoinformatics/Informatic/Computer Science/Geography or comparable qualifications and/or several years of relevant work experience in the mentioned field
- skills in the following areas:
  - development of spatial data infrastructures and GIS system architectures
  - adaptation and handling of common geographic information systems
  - geographic information analysis
  - web-based GIS (e.g. GeoServer, GeoWebCache, OpenLayers, Leaflet)
- additional skills that would be of advantage:
  - web development
  - GIS programming languages (e.g. Python, JavaScript, SQL, PHP, R)

What do we offer?

- an attractive modern workplace with a flexible management of working time
- opportunities for personal development in an ambitious start-up company
- challenging and interesting projects in a highly motivated team

If you are interested in innovative projects, dynamic and flexible teamwork as well as developing solutions for challenging problems, we will be happy to welcome you in our team!

You can send your application including cover letter, curriculum vitae, university certificate, references and salary expectations as PDF to info@egeos.de until the 18th of September 2015. If you have any questions, please do not hesitate to contact us.
