

## GIScience-Colloquium

Programme Spring Semester 2025

TUE 16:15 | Y25 H-79

**11 MAR**

**Dr Julia Frankenstein**

University of Technology, Darmstadt  
Psychology of information processing

**Perception, Psychology, and Architecture: Bridging Psychophysics and Virtual Reality**

**25 MAR**

**Prof. Ed Manley**

Urban Analytics, University of Leeds

**Deepening our understanding of space and behaviour**

**15 APR**

**Dr. Antoine Adde**

Department Aquatic Ecology, EAWAG

**Leveraging Nested Species Distribution Models to Inform Swiss Biodiversity Conservation Priorities**

**13 MAY**

**Prof. Tuuli Toivonen**

Digital Geography Lab, University of Helsinki

**Mapping the greenery and pleasantness of our everyday trips**

**27 MAY**

**Prof. Esra Suel**

Urban Analytics, University of Zurich

**Measurement and Modeling of Transport Inequalities in the Net-Zero Transition**

**18 FEB**

**Oliva Schilling (GIVA)**

Labelling Tappigraphy: A Ground Truth Study to Understand Mobile Map App Usage in Everyday Usage

**Xiao Cui (GIS)**

Green Space Exposure and Healthy Aging: Evidence from Multiple Green Space Measurements

**4 MAR**

**Alessandro Joshua Pierro (GIVA)**

Evaluating Navigation Behaviour in Urban Heat: A VR-Based Study on Pedestrian Route Choice and Thermal Comfort

**18 MAR**

**Micha Franz (GCO)**

Die obere Waldgrenze zwischen Natur und Recht: Ansätze zur Präzisierung

**Amanda Michelle Hadobas (GCO)**

Impacts of Extreme Droughts on Global Biodiversity

**Claude Widmer (GCO)**

School Route Safety: A Computer Vision Framework for Automated Evaluation in Zurich

**TBA**

**Laura Bozzi (GCO)**

Nomen est omen – Naming the world's glaciers from open web sources

**Cyriel Geistlich (GCO)**

Modeling Small-Scale Demographic Changes
