Structure

To obtain a Master's degree with a 30 ECTS credits Master thesis, at least 30 ECTS credits have to be completed with core elective modules offered by the Department of Geography.

Emphasis

To obtain a Master's degree with a designated emphasis within the Master of Geography, a minimum of 18 ECTS credits in core elective modules and the Master's thesis have to be completed within the field of the emphasis.

The following emphases are possible:

- Physical Geography *
- Human Geography
- Remote Sensing
- Geographic Information Science and Systems

* In Physical Geography the 18 ECTS credits in core elective modules need to be completed out of at least two of the four units of Physical Geography (e.g. two modules out of 3G and one out of 2B, H2K or GCH or one module each out of three different units).

Degree in General Geography

In addition to the emphases, it is possible to obtain a general Master's degree. For the degree in General Geography a minimum of 6 ECTS credits in core elective modules have to be chosen out of each of the three thematic subject areas Physical Geography, Human Geography, as well as Remote Sensing and Geographic Information Science.

Structure

To obtain a Master's degree with a 60 ECTS credits Master thesis, a Master agreement (GEO 400) needs to be made with the supervisor of the Master's thesis during the first semester. At least 18 ECTS credits have to be completed with core elective modules offered by the Department of Geography.

Emphasis

The conditions for a designated emphasis within the Master of Geography are defined with the supervisor and recorded on the Master's agreement (GEO 400). No unit is obliged to offer the 60 ECTS credits Master's thesis. Whether the 60 ECTS credits Master's thesis can be written, has to be agreed upon with the supervisor.

Degree in General Geography

To obtain the degree in General Geography is only possible with a 30 ECTS credits Master's thesis.
